Evaluator in Smart India Hackathon 2022. Completed a course on Data Science and Machine Learning, Artificial intelligence, Python Programming.

I would like to express my appreciation to all stakeholders on behalf of the editorial team at the reputed peer-reviewed journal "Recent Trends in Artificial Intelligence & It's Applications" , published by MAT Journals Pvt. Ltd. Our main objective is to promote research projects, white papers, case studies, and brief pieces that have been submitted by academics, business professionals, and research scholars. We strictly follow a rigorous review process, with highly competent subject experts designated for evaluation, to assure the journal's quality. To improve the overall quality, authors receive comments on their papers.

We are thrilled to see how passionate authors are about their work as they actively pursue their studies and express a desire to publish in our journal. My sincere congratulations go out to all the academics, business people, and researchers who have provided this journal with their worthwhile research papers.

I hope we will reach high level and give the best service to the all-stakeholders by improving the standards of the Journal.

With Regards,
Dr. Disha S. Wankhede (Maind)
Assistant Professor **(ACM, LMISTE, M-IAENG)** |
Department of Computer Engg.
Vishwakarma Institute of Information Technology (VIIT)
(An Autonomous Institute Under Savitribai Phule Pune University)
Survey No. 3/4, Kondhwa Budruk,
Pune 411048, Maharashtra, INDIA.
